WELCOME TO HOBART

As Chief Executive of Destination Southern Tasmania, it gives me great pleasure to extend the warmest of welcomes to you from all of our members in Hobart and Southern Tasmania.

Hobart is one of the most beautiful cities in the world. Nestled between kunanyi/Mount Wellington and the cool waters of the River Derwent you will find many of the unique and diverse tourist attractions and experiences that Tasmania is famous for.

Discover everything from the convict history of the UNESCO Cascades Female Factory and Hobart Convict Penitentiary to the eclectic art collection at MONA.

The iconic waterfront area of Salamanca hosts the famous market each Saturday that bears its name, as well as some of the best food and drink experiences anywhere in the southern hemisphere.

Once you have discovered the delights of Hobart we would encourage you to explore more of Southern Tasmania from the Coal River Valley wine region to the food bowl of the Huon Valley and D'Entrecasteaux Channel. There are national parks and waterfalls galore throughout the Derwent Valley and rare and spectacular UNESCO world heritage attractions in Port Arthur.

We welcome you to Hobart and southern Tasmania and have no doubt that your stay will be a memorable one.

EXPLORE HISTORIC

Battery point is a charming, historic village to discover on foot. Window shopping can be a delightful way to pass the day, with plenty of antique shops, boutiques and bookstores to explore.

On or near Hampden Road, a handful of restaurants, cafés, and bakeries, offer coffee, tea and fresh, Tasmanian food to enjoy. There are treats here for every craving. Grab a tasty snack and have a look around.

St. George's Anglican Church appeals to those intrigued by dramatic architecture. The church was designed by John Lee Archer in 1838. It sits upon Battery Point's highest spot, making it visible from the Derwent River, where colonial sailors could see the bright, whale oil lamp, burning in the tower and would use it to guide them home.

In the centre village green, 'Arthur Circus' awaits you. Original cottages wrap around a quaint, circular park, for a step back in time. Mostly built in the 1840s/ 50s, in the early days of old Hobart Town, these quirky little cottages have since been restored and are now highly prized residences.

batterypointwalk.com.au:

If the walls could only talk... consider a self-guided, historic walking tour to learn the stories that once filled this otherworldly town.

A public walkway runs around the front of the main CSIRO building, providing access to a viewing platform above the working wharf. This offers an excellent vantage point for a close-up view of RV Investigator when it's in port.

HOBART CITY CENTRE

Hobart is Australia's second oldest capital city after Sydney in New South Wales. It is a small city with low-rise buildings connected by one-way streets and surrounded by plenty of green space. Hobart lies on the edge of the River Derwent with an ever changing backdrop of kunanyi/Mt Wellington. Over 200,000 people live in the Greater Hobart area and over 500,000 in Tasmania. The Queens Domain contains the Royal Tasmanian Botanical Gardens, please see page 48 for more information.

BATTERY POINT

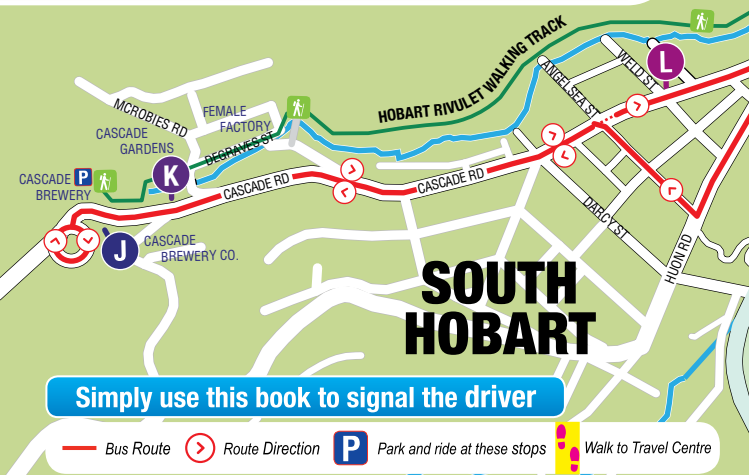

Hobart's oldest and most historic suburb, named after the battery of guns established on the point in 1818 as part of Hobart's coastal defences. Houses in Battery Point were built in the 1830s - 40s to accommodate the growing settlement, ranging from small fisherman's cottages to mansions of merchants and master mariners. Today, Battery Point is one of the city's most prestigious suburbs.

Located south of Hobart, stretching between Mt Nelson and the beaches along the River Derwent. Sandy Bay is a popular and diverse suburb with colonial sandstone buildings, large modern homes and student accommodation surrounding the University of Tasmania.

SOUTH HOBART

Nestled in the foothills of kunanyi/Mt Wellington with views over the city, South Hobart was settled in the 1830s and was home to wealthy lawyers, doctors and magistrates who built large, gracious homes. Cascades Female Factory

Historic Site

Beneath the shadow of kunanyi/Mount Wellington, the UNESCO World Heritage-listed Cascades Female Factory is the best place to connect with the lesser known stories of Australia's female convicts.

From 1828–1853 thousands of women and children were imprisoned here; many never left.

Joining a guided tour brings the stories of this challenging but very special place to life. Tours reveal stories of the women and the punishment system to which they endured and railed against.

Ticket proceeds help to fund the ongoing conservation of the site.

HOBART RIVULET WALK

The Hobart Rivulet Walking Track (below): approximately 40-minute or 2.7km, this pleasant urban bush walk gives the visitor a bit of a Hobart colonial history lesson along the way.

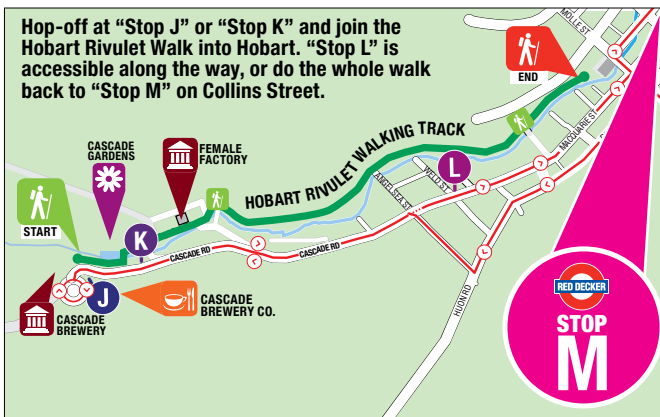

Follow the Hobart Rivulet Walking Track downstream from the foothills of kunanyi / Mount Wellington, beginning at either “Stop J” - near the historic Cascade Brewery (across the road, in Cascade Gardens lush park ground) or “Stop K” near the World Heritage Listed Cascades Female Factory.

This well-marked track has a gentle downhill grade, guiding you back into the city to meet up with us at Stop “M” on Collins Street (page 39) to resume your Hop-on Hop-off city loop tour.

Keep your eye on the water or water’s edge for the platypus that call the Hobart Rivulet home. These incredibly special animals, living so close to Hobart City, have recently become stars in a documentary called “The Platypus Guardian”. Platypus are shy, endangered and nocturnal. The possibility is very slim that you will see one in the daylight. Please always be respectful of their habitat. The city of Hobart’s Bushcare Program aims to raise awareness of the significant need for the protection of this unique species. Thank you from the people of Hobart and all platypus lovers.

www.hobatrivuletplatypus.org/

Hop-off at “Stop J” or “Stop K” and join the Hobart Rivulet Walk into Hobart. “Stop L” is accessible along the way, or do the whole walk back to “Stop M” on Collins Street.
